

Wharton Electronics Quote – 2.3” High Digits with PoE

09/06/2017

4581 series digital day countdown clocks are an ideal way of focusing attention on your forthcoming event, product launch or similar event. These large LED countdown wall clock displays show the exact time remaining before the event and will then provide a count-up of time after the event launch.

4581NE.057.x.S – Digital calendar countdown clock with **2.3”** high seven segment characters showing number of days, hours, minutes and seconds display in one row. **Black** surface mounted case complete with mounting brackets. **PoE power source** (requires a standard cat 5 cable using IEEE 802.3af power injector – not supplied by Wharton). Recommended viewing distance up to **75ft.** Dimensions Width 33” Height 5.5” Depth 2.3”. Weight 10lbs.

4581NE.057.R.S	MSRP \$ 918.00 Each	Red Display
4581NE.057.G.S	MSRP \$ 1017.00 Each	Green Display
4581NE.057.Y.S	MSRP \$ 1017.00 Each	Yellow Display
4581NE.057.B.S	MSRP \$ 1365.00 Each	Blue Display
4581NE.057.W.S	MSRP \$ 1365.00 Each	White Display

Included in the price is a RC100 infra-red remote-control handset which allows each digital clock to be remotely programmed time and operated as a count-up or count-down stopwatch.

Shipping: is included on all orders over \$ 500.00. Shipping is via UPS courier to mainland US delivery address. The price includes the 4% duty levied by the US Customs Office but excludes any appropriate local or state taxes. For orders under \$ 500.00 please provide zip code for freight quote.

Dispatch: will be approximately 6 working weeks from receipt of order, subject to confirmation. Courier takes 2-3 additional days.

Payment: is required against our pro-forma invoice **prior to the dispatch** of your order, or any part thereof. We accept payment by US Forces Impact Card, AMEX, MasterCard, VISA or Bank Wire Transfer.

Warranty: Our products are warranted against any defect in material or workmanship for a period of 36 months from the date of supply. We reserve the right to repair or replace the faulty goods free of charge subject to their return to our works at our discretion. We provide a product lifetime technical support with unlimited free access to our support engineers by email, fax or telephone.

Statement of origin: All Wharton Digital Clock, World Time Zone and Master Clock products are proudly designed and manufactured in the United Kingdom.
